PROFILE

Originally from Palermo, Italy with a background in hotel management and culinary arts. After years of work as a Chef de Partie in prestigious Belgian restaurants, I transitioned to programming through BeCode, and currently specialize in front-end development. Holder of **Activa** card: provides employers with financial incentives.

EXPERIENCE

PERSONAL SIDE PROJECTS

from june 2024

- **developing websites**, including a personal site for my sports coaching passion and an ongoing project for a client in the antique business
- developing **AI models** for company-specific predictive analytics based on client requirements with TensorFlow
- transforming and preparing data for use in TensorFlow

FRONT-END DEVELOPER INTERN

Walter Clayton | april - june 2024

- **Akwanza**: e-commerce website for BigLife.org charity organization
- **Afipilot**: fitness website syncing with devices like smartwatches to track your health and workouts

FRONT-END DEVELOPER INTERN
