EMANUELE POLIZZOTTO

FULL-STACK DEVELOPER | AI & SYSTEMS INTEGRATION

Brussels, Belgium | +32 492 503 152 | emanuele971@icloud.com | github.com/emignox | nemei.app

PROFESSIONAL PROFILE

Full-stack developer with 2+ years of professional experience specializing in Python, FastAPI, and React/Next.js. Proven track record building production SaaS platforms with AI/ML features and complex system integrations. Experienced in Odoo ERP development for international enterprise clients with third-party logistics and API integrations. Hands-on experience with LLM APIs (Anthropic Claude, Google Gemini) and machine learning pipelines. Skilled at translating complex business requirements into scalable, well-architected solutions. Fluent in Italian, French (C1), and English (C1).

TECHNICAL SKILLS

Backend	Python, FastAPI, SQLAlchemy, RESTful APIs, Webhook Integration
Frontend	React, Next.js, JavaScript, TypeScript, Tailwind CSS, HTML5
Database	PostgreSQL (advanced queries, optimization, data modeling), SQL Server
AI / LLM	Anthropic Claude API, Google Gemini Vision API, scikit-learn, ML pipelines, RAG concepts, MCP (Model Context Protocol)
ERP / Integration	Odoo (v14–19), OWL, QWeb, 3PL API integrations, Peppol e-invoicing
DevOps / Tools	Git, CI/CD (Railway), Linux servers, Docker (familiar)
Security	OAuth 2.0, Stripe secure payments, API authentication
Architecture	Microservices patterns, Service-oriented design, API-first development

PROFESSIONAL EXPERIENCE

Odoo Developer Consultant

VS Consulting Digital, Brussels — Sep 2024 – Present

- Develop custom Odoo modules (v14–19) for international clients in luxury fashion and EV charging infrastructure sectors
- Design and implement complex API integrations with 3PL warehouse management systems (Bleckmann, Savino Del Bene) for automated inventory synchronization
- Build multi-currency conversion systems, manufacturing workflows, and real-time stock management across multiple warehouses
- Develop Peppol e-invoicing integration for enterprise billing workflows (Engie/Vianeo)
- Create subscription plan APIs and automated billing systems for EV charging infrastructure management
- Customize QWeb PDF reports, email templates, and OWL frontend components for client-specific business logic

Stack: Python, Odoo (OWL, QWeb), PostgreSQL, RESTful APIs, XML, JavaScript, Git, Linux

Founder & Full-Stack Developer

Nemei Fitness Platform (nemei.app) — 2024 – Present

- Architected and launched a production SaaS fitness platform with FastAPI backend, Next.js/React frontend, and PostgreSQL database
- Integrated Anthropic Claude API for intelligent conversational features and Google Gemini Vision API for automated food recognition and calorie estimation from photos
- Trained and deployed Random Forest ML models (scikit-learn) for personalized workout generation based on user fitness data
- Implemented Stripe API integration with OAuth for subscription management, recurring billing, guest checkout, and webhook-driven event processing
- Designed complex database schema integrating USDA nutritional database (450,000+ food items) with user health profiles

EMANUELE POLIZZOTTO

FULL-STACK DEVELOPER | AI & SYSTEMS INTEGRATION

Brussels, Belgium | +32 492 503 152 | emanuele971@icloud.com | github.com/emignox | nemei.app

- Managed full product lifecycle from architecture design to production deployment with CI/CD pipelines on Railway

Stack: Python, FastAPI, SQLAlchemy, Next.js, React, PostgreSQL, Stripe API, Anthropic Claude API, Gemini API, scikit-learn, Railway (CI/CD)

Full-Stack Developer (Training)

BeCode, Brussels Sep 2023 – Apr 2024

- Completed intensive full-stack bootcamp with focus on JavaScript, React, Node.js, and Agile methodologies
- Developed full-stack applications with RESTful API integration, server deployment, and database connectivity
- Applied advanced data manipulation techniques and worked with external APIs for cross-platform integration

EDUCATION & CERTIFICATIONS

Junior Full-Stack Developer

BeCode, Brussels 2023 – 2024

Certified Personal Trainer (EREPS)

Physical Coach Academy, Brussels 2022 – 2023

Hospitality Studies Diploma

I.P.S.S.A.R. Paolo Borsellino, Palermo 2011 – 2016

LANGUAGES

Italian (Native) | **French** (C1) | **English** (C1)

KEY PROJECT HIGHLIGHTS

- EP Sportswear – Developing an e-commerce platform for graphene-based sportswear with automated order management and print-on-demand integration
- Odoo VS Code Extension – Published extension for Odoo function discovery, improving developer productivity
- Casa Blanca (Fashion ERP) – Complex multi-warehouse 3PL integration for international luxury fashion operations
- Engie/Vianeo (EV Charging) – Enterprise billing and Peppol e-invoicing for EV infrastructure
